Catarrh Can Be Cured

Catarrh is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work.

KENTUCKIANS SLATED FOR GOOD POSTITIONS

tral Kentucky are reported to be slated for good appointments in foreign parts under the new National Republican Administration. They are Judge Charles Kerr, of Lexington, present Circuit Court Judge of the Fayette district and last year prominently mentioned for the Republican nomination for United States Senator, who is said to have been offered a Federal Judgship in the Panama Canal Zone, and Judge H. Clay Howard, of Paris, who is being urged by his party friends for the post of Minister to Peru. Judge Howard held the Peruvian post several years ago, having been appointed by President William Howard Taft to succeed Leslie Combs of Lexington, who was appointed by President Roosevelt.

During his incumbency Minister Howard was the friend of President Leguia, of Peru, and the pleasant relations between the Peruvian Government and this country were materially strengthened.

Realizing his standing with that country, a big New York corporation which had long sought to gain irrigation concessions in Peru, engaged the voters of the county at the prinches services of Judge Howard after he had returned to the United States, following the end of his diplomatic duties, and sent him to Peru as its agent. Judge Howard was successful in his mission, and thousands of acres of land have been reclaimed as

> stated. Since Judge Howard served as Minister to Peru the post has been raised to an Ambassadorship, which carries with it a considerable increase in salary, besides number of

MAKES MODEL OF FAMOUS OLD CATHEDRAL

Like a piece of fine old lace, exquisite as it is intricate, is the model of the Cathedral of St. Muclon, Rouen, France, wrought from birch wood by W. A. Mitchell, observer, at Lexington, for the United States Weather Bureau.

Every detail is worked out with the skill of the real artist, the twenty pinnacles on the body of the cathedral, the tiny saint, the eight pinnacles on the spire, and the clock, which, when completed, will be controlled by electricity and will chime the hours.

The base is fourteen inches wide and seven deep, while from foundation to the highest point the Cathedral stands thirty-four inches It was reproduced from a small photograph of St. Muclon, and its pros are said to be near perfec-

RURAL PRESS MERGER

One aspect of prevailing economic conditions is seen in the consolidation recently of the press in three Kentucky towns. With other mergers in prospect they afford ah interesting subject of discussion as to what effect such a policy will have on the life of the State and particularly on the communities in which these papers are published.

The soaring cost of print paper and the accessories used in the county print shop make it small wonder that the rival publishers sought and are seeking a common ground upon which they can combine cost few cents. Druggists also sell their interests and at the same time

Ordinarily there has been little love lost between the publishers of rival newspapers in the cities and towns of the State, political cabals as well as other classifications widely Obivously the way to escape fire separating them.
